

**Call us if you are unable to pay**

If you are unable to pay the amount by 2. July 2021, it is important that you call us on **+45 72 37 45 96**. You can also write to us via [www.gaeldst.dk/english/contact](http://www.gaeldst.dk/english/contact).

If you do not pay the outstanding debt or call us, we may levy execution on your assets in Denmark, for example your house, machinery or the like. This means that we may arrange a compulsory sale of your assets and use the proceeds for repayment on your debt. We may also pass on the debt for collection abroad - both by public authorities or via private debt collection agencies. Please note that if we use private debt collection agencies, you must pay the costs that we find reasonable in this connection.

**We can set off any amounts you receive from the public sector against your debt**

If an amount, for example tax or VAT, is to be repaid to you, we can set off this amount to cover your debt. This also applies even if you make regular payments on the debt.

**Do you have other debt for collection?**

During the period in which the Debt Collection Agency works to resume the debt collection, we use several IT systems. You may therefore have debt which is collectible under the existing legislation, but which is not included in this letter. If this is the case, you will be contacted separately about payment of such debt. If you would like information about this at the present time, please contact us.

When you pay the debt via the payment line in this letter, we first use the payment to cover the debt registered in our old debt collection system. Any excess amount may be used to pay any other debt for which debt collection has been initiated or be paid into your NemKonto.
